

ECOPLANT

The industrial plant has been designed in order to maintain unchanged the exceptional natural quality of Virgen water, achieving the highest grade of efficiency at a productive level, in the full respect of environment.

In our company we use exclusively clean energy and solar power. The system was design to become self-sufficient with the addition of wind turbines, and exploit to the maximum the solar uptake system, becoming one of the first self-sustaining plants in the world.

Natural Mineral Virgen de las Ánimas Water joins the exclusive list of luxury waters into the "Epicurean Guide to the World of Premium Bottled Water" of the internationally renowned Sommelier Michael Mascha.

In the new edition of his guidebook and in his FineWaters website, Mascha describes Virgen de las Animas water as having "a hint of sweet due to its almost neutral ph, the balanced, medium mineralization enhances the waters perception as "sweet" and "soft" despite its calcium and magnesium content. Virgen de las Animas is a premium natural water in an upscale glass presentation and will enhance every epicurean table or dining experience".

VIRGEN
NATURAL MINERAL WATER
de las Ánimas

feel the spirit of water

Bottled at its source by Premiumbevs S.A.

ORIGEN

Virgen Artesian Mineral Water, emerges from an exhaustive search in Uruguay for the highest quality of water, by experts in geology and hydrogeology.

The artesian source lies in the depths of the hill Arequita: an extraordinary volcanic formation of 300 million years, considered a geological oddity to resist weathering through the ages. This natural sanctuary located in an ecological preserve, protect, purify and mineralize our water in a unique way.

- NATURAL MINERAL WATER
- PERFECT MINERALIZATION
- VIRGIN
- ORGANIC

A MIRACLE OF THE NATURE

The virginity of natural mineral water Virgen de las Animas, the perfect physical chemical-composition and the soft mineralization give it its unique taste. This makes it an ideal choice for the best wines and the most exquisite dishes. Its low sodium content, the absence of nitrates and the perfect balance between calcium and magnesium hardness is equivalent to our organism, therefore it is the optimal water for the requirements of our body.

QUALITY

Natural mineral water Virgen de las Animas comes from a confined aquifer located in the heart of a nature reserve, ensuring its virginity. It is bottled at the source in an last generation ecological plant, meeting the highest standards of quality and food safety. The plant has a quality control laboratory where tighter controls are done before, during and after bottling.
